

# **REDWOOD RV IMPROVES FRONT LIVING ROOM FLOOR PLAN WITH INDUSTRY INNOVATIONS**

SYRACUSE, IN--- Redwood RV has improved upon one of the industry's best selling floor plans with its introduction of the 36FL. By making innovative changes, Redwood has developed a front living room model with unique features that better meet the needs of the full-time consumer.

"The 36FL is uniquely Redwood. We've taken one the best and made it better," explains Tom Montague, General Manager for Redwood.

The 36FL kitchen has been expanded by moving the slide-out to the off door side and adding the industry's largest moveable dinette table capable of accommodating six adults. The living room is also improved by relocating the entertainment center directly across from the living room chairs for more comfortable TV viewing. The entry way is made larger and enhanced with a grand staircase and two hand rails. Other improvements include an 80-inch sofa, pull-out desk, and fireplace. Redwood has also optioned a sliding patio door for customers who stay in one area for extended periods of time.

Redwood focuses exclusively on building full time residential fifth wheels with models ranging from 34 to 42 feet. All units include an industry exclusive two-year limited protection and five-year structural warranty. Redwood RV is located at 72440 State Road 13 in Syracuse, Indiana and distributes its products through dealers across the United States and Canada. Redwood is part of the Thor Industries family of companies, the world's largest manufacturer of recreational vehicles.
